

Remarks/Comments

The applicant elects group I, claims 1-22, 29, 30, and 31 with traverse. The applicant has further amended group II, claims 23-28 and 32, to recite dependency from the system recited in claim 9. No new matter is added thereby, as claim 9 previously recited a "graphical user interface" and all of the limitations of each of the currently amended claims are previously recited features of that same "graphical user interface." Accordingly, the basis for the Examiner's restriction is moot.

The applicant has made a good faith attempt to place the application and claims in condition for allowance, and action towards that end is hereby requested. If not allowed, the applicant respectfully requests that the amendments to the claims set forth herein nevertheless be entered into the record. The examiner is invited to contact the undersigned should the examiner have any questions or comments.

Respectfully submitted,
